

CORGI TIMES

THE ELIZABETHAN II STUDY GROUP NEWSLETTER

Under auspices of BNAPS - *The Society for Canadian Philately*
Volume II, Number 2 Whole Number - 8 Copies Mailed 97

From 96 copies at the end of the first year 97 copies of this issue are being mailed. Twelve of the 96 were dropped for a variety of reasons. Eight new members have been added and this mailing includes 5 complimentary copies. Effective immediately, complimentary copies are limited to one current issue. Our drop rate of 12.5% was high due in part to including complimentary mailings. If they were excluded the rate would have been 8.9% - still a bit over the 5% rate claimed by the APS.

BNAPLEX '93 held at the Royal York Hotel in Toronto on Labor Day weekend was a big success by any criteria: Over 200 frames of BNA on display; Over 20 Dealer or Dealer equivalent bourse participants; over 20 group meetings; countless social activities. Only one suggestion I would make: Use a loudspeaker to announce the group meetings. I missed a few I wanted to attend because I got all wrapped up in other activities and missed the time slots.

There were over sixteen attending the Elizabethan Study Group meeting. Harry Machum presented a top notch program on "Ways to Collect Canada Elizabethan II" Harry explained he was using the "classical period" as the basis for his presentation. The classical period, according to Harry, consists of the Wildings, Karsh and Cameo issues. Using pages from his collection he proceeded to cover some 15 ways in which one could approach the Elizabethan period. It was excellent. We expect to see some of the examples in the Corgi Times in coming issues.

New members and their primary interests:

James B. Love	Coils	Leopold Beaudet	Entire Elizabethan
37 Pheasant Lane		1386 Louis Lane	Period
Islington, Ontario		Ottawa, Ontario	
Canada M9A 1T5		Canada K1B 3P3	

Chairman - Harry C. Machum, Box 123, Little Current, Ontario, POP 1K0, Canada
Editor - John D. Arn, N. 17708 Saddle Hill Rd., Colbert, WA 99005. Tel. 509-467-5521
Treasurer - William (Bill) H. Schoen, E. 7207 Fairview, Spokane, WA 99212

ANNUAL DUES: US and Canadian addresses US \$9.00. Canadian addresses option of CAN \$12.50. All others US \$15.00. Please make checks payable to "The Elizabethan II Study Group" and send to John D. Arn, Editor at the above address.

Bill Schoen reports a number of additions to the contributing member program: K. Bileski Ltd; D. Robin Harris; John Hillmer; Harry Machum; Robert McLeish; Vincent Sgro and Jean Thiebault. Thank you very much. The next report on our financial status will be at mid-year.

Page 18 of the last issue contained a report on the first joint Centennial Definitives/ Elizabethan II joint mail sale managed by Scott Traquair. The report contains several suggestions on lotting; type of material and values. Closing date for the receipt of material for the next sale is January 20, 1994. Send Scott a list of what you plan to put in the sale. Mail the lots separately. Registration is optional. I self insure. No mailing problems were experienced in the last sale. All correspondence should be direct with: Scott Traquair, P. O. Box 52558, 1801 Lakeshore Rd. West, Mississauga, Ontario, Canada L5J 4S6.

I am very pleased to announce that Harry Machum has agreed to serve as Chairman of the Study Group. Harry has a wide acquaintanceship throughout Canadian Philately and has been and is a very valuable resource for your editor. We are working on a statement of the responsibilities to be provided with a future issue. Included will be the responsibility to chair the annual meeting of the study group normally held in conjunction with BNAPEX.

As promised in the last issue, the use of headers, footers and page numbers has been resolved. Implemented with this issue are the following changes: the masthead will continue to show volume number and issue number. In addition, the whole number has been added. Headers will not be used. Footers will state the time period (Sept. - Oct. 1993); publication name (Corgi Times); and page number. The page numbers will be cumulative for the entire volume.

We are very pleased to include with this issue a copy of the Index to Volume 1 prepared by Philip Kohl. Phil volunteered to do this way back during our initial issue. He has agreed to continue this work for Volume 2. In examining the index I think you will quickly appreciate the work that goes into this project as well as the use and value each of us will enjoy. Phil, thank you very much.

A Study Group Roster is planned for inclusion with the next issue. Member listings will be in accordance with their instructions on the form used for 1993/94 membership payment. For a variety of reasons there are a number of members where the information is not totally clear. If there is a question with your listing, the green slip included with this issue is a statement of how you will be listed in the Roster. If you want any changes in that listing please return it to me by Dec. 15. Do nothing if the green slip data is OK.

ELIZABETHAN MARKET REPORT

by: Dean Mario

Summertime usually sees a significant decrease in auction activity but it certainly was not the case in 1993! R. Maresch and Son's June 9-10 public auction sales (#277-79) offered many beautiful items and collectors of the Elizabethan era were not disappointed. Many rare varieties and scarce items were quickly snapped up by determined bidders.

One unusual lot was lot 659, a 1966 5¢ Pitcher Plant corner block with the rare double print of red colour variety in VF, LH condition. The catalogue price quoted was \$2400 (Unitrade Canada Specialized) but the lot was sold for \$900 (prices do not include the 10% buyers' premium). An imperforate pair of the 6¢ 1971 Maple Leaf in Spring, lot 674, fetched \$500 in VF NH condition (\$750 estimate). Another rare item was a 1974 8¢ Winter Olympics NH block printed on the gummed side (lot 684) with a Unitrade value of \$1750. It went to a new home for \$700.

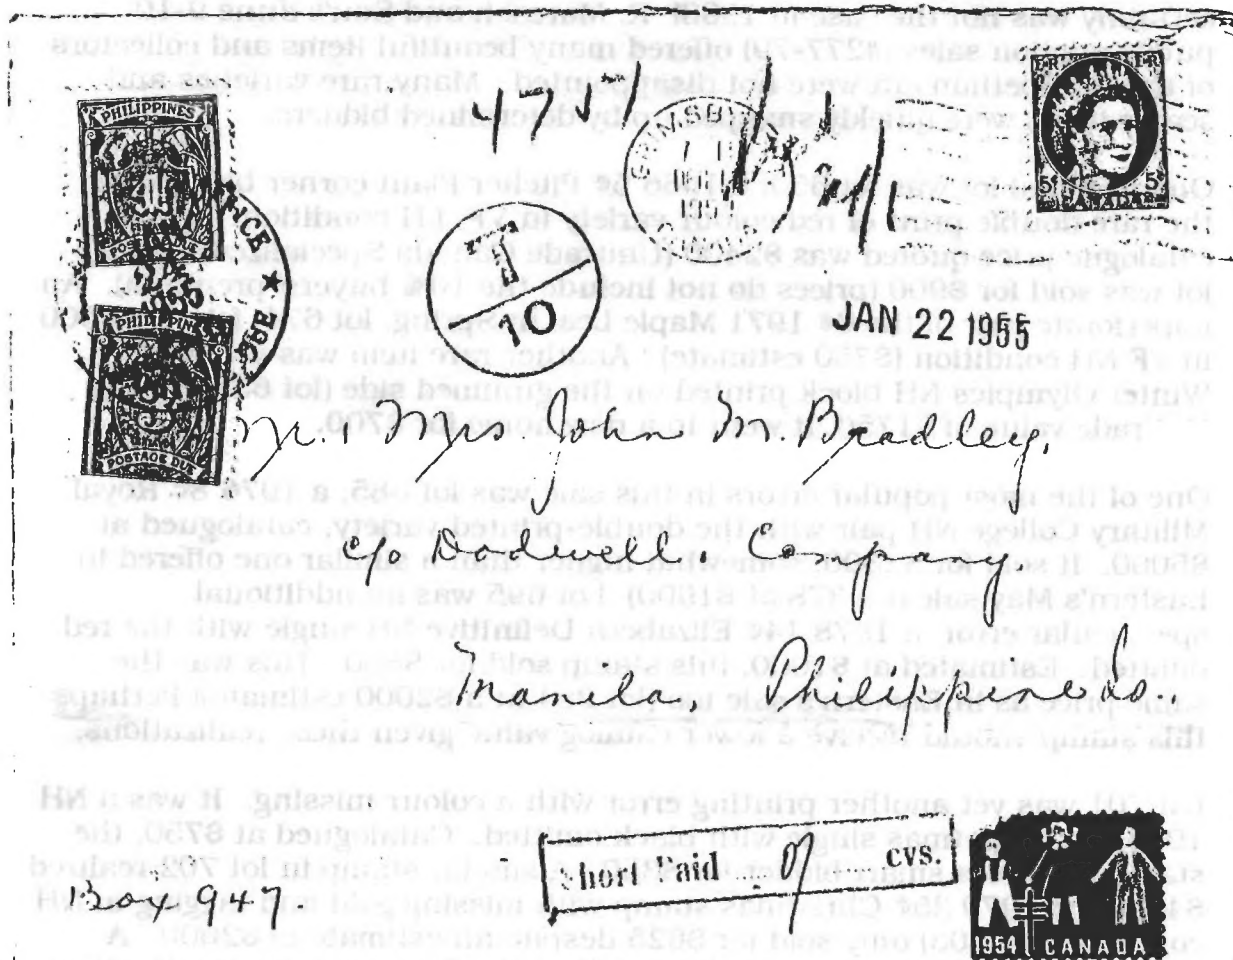

One of the most popular errors in this sale was lot 685, a 1976 8¢ Royal Military College NH pair with the double-printed variety, catalogued at \$5000. It sold for \$2300, somewhat higher than a similar one offered in Eastern's May sale (lot 378 at \$1900). Lot 695 was an additional spectacular error, a 1978 14¢ Elizabeth Definitive NH single with the red omitted. Estimated at \$1000, this stamp sold for \$850. This was the same price as in Eastern's sale too (lot 384 at a \$2000 estimate)! Perhaps this stamp should receive a lower catalog value given these realizations.

Lot 701 was yet another printing error with a colour missing. It was a NH 1978 14¢ Christmas single with black omitted. Catalogued at \$750, the stamp went to a smart bidder for \$350. A similar stamp in lot 702 realized \$400. The 1979 35¢ Christmas stamp with missing gold and tagging in NH condition (lot 703) only sold for \$625 despite an estimate of \$2000. A 1990 39¢ Flag Definitive Imperforate NH strip of five on fluorescent paper (lot 712) was estimated at a catalogue value of \$400+ but realized \$150.

Larger lots are often of interest to bidders and a few were offered in this sale. Lot 792 was two stockbooks filled with over 370 plate blocks, coils, mini-sheets from the late 1970's to early 1980's. Face value of the lot was \$540 and sold for \$425. A modern variety collection on a stock page (lot 793), primarily composed of shifted tagging and untagged specimens of the 1972-77 Caricatures, 1975 Christmas, and the 1976 20¢ Olympic Communications Issues among others, was estimated at \$75+ and sold for \$120. A nice specialist lot 794 filled with untagged mint NH blocks of the 1973 8¢ Algonquin Indians, 1975 8¢ Christmas, 1977 23¢ Silver Jubilee, and 1973 8¢ Joseph Howe Issues in matched sets or plate blocks was estimated at \$100+ and realized \$260. R. Maresch and Sons can be reached at their offices at 330 Bay Street, Suite 703, Toronto, Ontario, M5H 2S8.

SECTION II - QE II - KARSH, WILDING AND CAMEO ISSUES

Shown below is a very nice Wilding cover acquired at the recent Apple Harvest '93 Exhibition and Bourse held in Spokane, Washington.

A Christmas card mailing (complete with 1954 Xmas Seal) from Grimsby, Ontario mailed December 13, 1954 to Manila, Philippine Islands. The 5¢ Wilding short paid the rate by .07 centavos and this was paid by two Philippine postage due stamps on Jan. 24, 1955.

WANTED: Centennial & Caricature complete booklet panes used in period on cover. Usages should be non-philatelic in nature and pay proper rates. Richard Beecher, 2641 Locksley Place, Los Angeles, CA 90039

SEND THE EDITOR YOUR QUESTION/S ON ANY ASPECT OF THE ELIZABETHAN II PERIOD. ALL QUESTIONS WILL APPEAR IN THE CORGI TIMES. NONE ARE TOO TRIVIAL. THIS IS YOUR NEWSLETTER !

SECTION III - CARICATURES AND LANDSCAPES SERIES

Not shown here are the top eight rows of this 1¢ Macdonald pane of 100. The first nine rows are perforated normally. Now look at the tenth row. It has three rows of horizontal perforations. Also, the entire tenth row is vertically double perforated. Tagging of the entire pane is normal. If this was an upper pane there could be a beauty in the lower position unless it was found and destroyed by the printer. Is this due to multiple electrical interruptions or some other ???

Scott 589 - 4¢ King - Major dramatic mis-perf. Design shifted up and to the left. This matched set of corner blocks are from a field stock pane. Normally they would be entirely blank. However, due to the mis-perf the inscriptions on the two bottom blocks were not cut off - a unique and scarce occurrence.

Both items supplied by John Hillmer

SECTION V - COMMERATIVES

For close to the past year the hologram space stamp has been the major current philatelic news item. This was an issue intended to come off the production line "picture perfect." Instead, there have been a parade of varieties and major findings including the missing hologram errors.

In my opinion the hologram space stamp has turned out to be a "fun issue." If you enjoy varieties this is your issue. There is the opportunity of identifying the various reported varieties as well as the very real possibility of identifying yet another unreported variety. Yes, you most likely will not find a missing hologram and, yes, the missing holograms are priced out of the range most can afford. But, there is still a ton of fun to be had and you just might strike pay dirt.

Arthur Richards has taken the initial steps. He is having fun as you will see from his report and I would predict his findings will continue to grow as he continues his studies.

"I've been studying 17 Space Hologram panes and I have found some plate varieties I feel are worth reporting. These panes attract a lot of lint which must be eliminated. Once that is done I look at each pane for consistency. One pane has the "Black Hole" variety and nothing else. One pane has a variety called the "Meteor Shower" which is a series of black dashes across the map holos. (Fig. A). Another pane has no varieties but the map is well below the frame line - almost up to St. John Bay. Two other panes do not have any varieties. The balance have what I believe to be a plate variety.

There is a spot about the size of a pinhead located on various holos but generally in the same place. (Fig. B) (There are two exceptions discussed later). I have 6 panes with the spot in the second holo from the top on the right side. I have 2 panes with the spot on the middle right holo and 2 panes with the spot on the bottom right holo. The remaining holograms are entirely different. The pinhead spot is the same size and location, however one pane has the spot in the top holo on the left side with an identical spot just off the western coast. (Fig. C.) The other pane has the spot at the middle left with an identical spot just off the western coast."

For those interested in studying the hologram issue the following bibliography has been provided by Joseph Montelro.

The case of the disappearing bars! Scott #1116, the Christmas booklet stamp for 1986 was designed for use on greeting card envelopes with a postal code matrix. Peter Johnson has provided the photocopies shown below. Are you able to help?

The three vertical black bars are almost entirely missing from the stamp with only about 1 mm of a bar showing on the extreme left. This was found in a kilo mix. No other known data. Have others noted this condition. Are there examples of the vertical bars in various positions including on the face of the stamp? Any information appreciated.

PLANNING CALENDAR

This is a listing of major exhibitions and bourses with a large content of both Canadian Exhibits and Canadian Dealers. Minimum criteria for listing: Two day event: 1000 page exhibition - 18 Dealer Bourse with more than 50% offering Canadian material. The goal is to list events far in advance to encourage either exhibiting or attendance and preferably both.

1994

March 18-20, ESCPEX '94, the Edmonton Spring National, Europa Conference Center, West Edmonton Mall

May 6-8, ORAPEX '94, Ottawa, ON., the RA Center

June 10-12, OGOPEX, ROYAL 1994, Vernon B. C., the Vernon Lodge

Sept. 29-30 & Oct. 1, BNAPEX '94, Burlington, VT., the Radisson Hotel

1995

Sept. 8-10, BNAPEX '95, Edmonton, AB

BNAPEX '94

SECTION VI - 1982-87 DEFINITIVES - ARTIFACTS & NATIONAL PARKS

Does the 10¢ Weathercock exist on Clark paper?

A 27 Feb. 1989 article in Linn's reported the existence of Scott #921, 10¢ Weathercock, on Clark paper printed by Canadian Bank Note Co. Bill Schoen has been looking for a copy since that time. He noted it was not listed by John Schmidt in his Summary of Heritage Artifacts (Revision A) published in Volume 1, No. 6 on pages 84-7. Following his inquiry Bill received the following response from John: "I've checked two other sources, Canada Post and John Jamieson (of Saskatoon Stamp Centre), and my collection. All those agree there was no issue on Clark paper of the 10¢ Weathercock." John goes on to say he is checking another key source and should there be anything further to report he will advise further. He also speculates Linn's reference may have been due to confusion with the 5¢ Bucket which was printed on Abitibi, then Clark, then Harrison, and finally on Rolland papers. On a related matter John points out that he does not, in his articles, list Field Stock items. He takes the position that if an item is issued in Philatelic Stock it is also sold through Field Stock where the inscriptions is cut off the corners. In thanking John for his detailed response Bill did note "If it (10¢ Weathercock) does exist could it have been an emergency issue field stock for delivery only to a few cities?"

Editors addendum: Just to put this to rest I pulled out "Definitives of Canada: the Last Quarter Century"¹ by Joseph Montelro. One of the outstanding features of this publication is each of the known published studies is reported, and then Joseph prepares a consolidated summary of all the studies. He then identifies the differences between the studies and attempts to reconcile and explain those differences. It turns out there have been six major studies of the Artifacts. In sequence: Grombeck-Jones; Cottin; Montelro; Rock; Beaudet and Schmidt. Presented below is an abbreviated summary comparison of their findings on the 10¢ Weathercock:

Study By:	Abitibi (AP)	Clark (CBN)	Harrison(CBN)	Rolland (AP)
G-J	X		X	
C	X	BC	X	X
M	X		X	X
				BC (4mm)
R	X	BC	X	X
B	X		X	X
				BC (4mm)
S	X		X	X
X - with an inscription BC - Blank Corners				

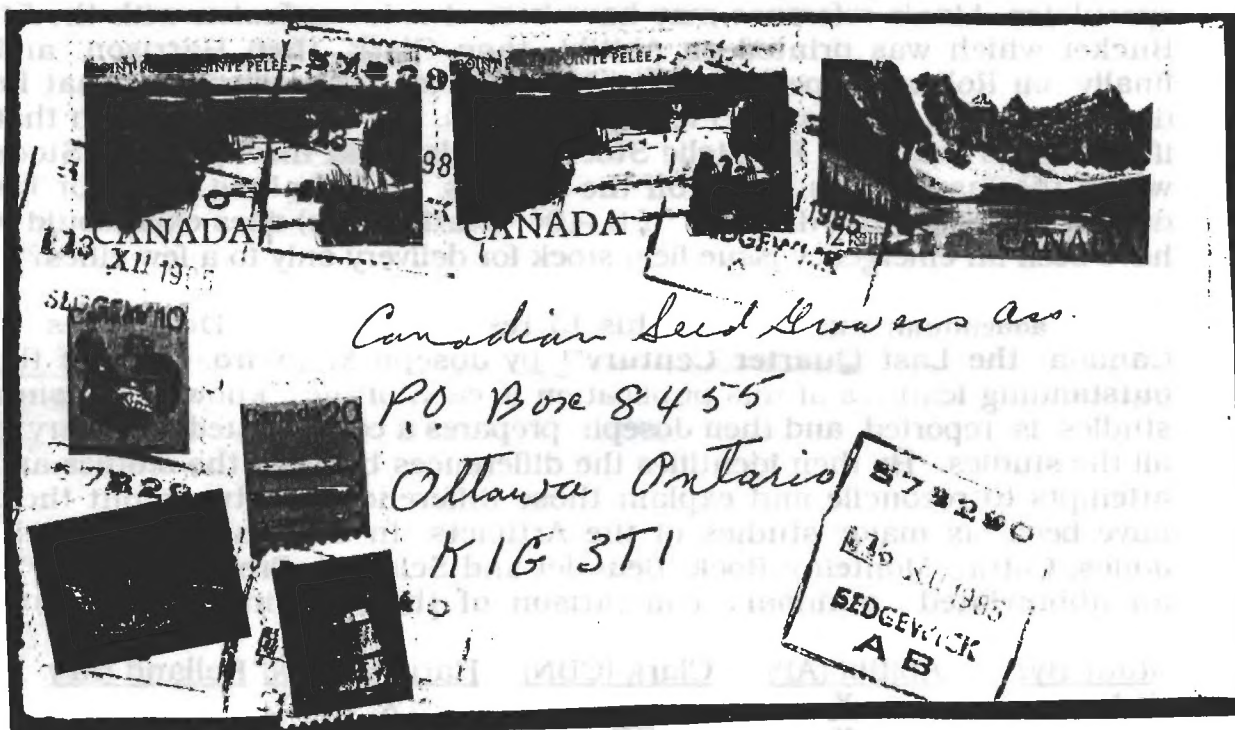

Montelro then reconciles the differences as follows:

"The Cottin and Rock study list the printing of the 10¢ Weathercock on Clark paper and does not list the printing of the 5¢ Bucket on Clark

paper. This is incorrect. The 10¢ has not been printed on Clark paper and the 5¢ has been printed on Clark paper. In addition to those errors, a variety of the 10¢ Weathercock printed by Ashton-Potter on Rolland paper without marginal inscription with tagging 4mm has been omitted by most studies except Leopold Beaudet and a latter study by Joseph Monteiro." On the inscripted version of the Rolland paper the two bar tagging is 3.5 mm wide.

Conclusion: the 10¢ Weathercock does not exist on Clark paper. There are two varieties on Rolland paper, one of which is on Field Stock without any inscriptions. Bill Schoen reports he does not have the Field Stock variety.

John Aitken provided the following item which he acquired at the Philex show in Toronto.

This is a front from an envelope used on a parcel. There is a total of \$12.85 postage and it is assumed this was the total postage. It was post marked 578290 on 13 December 1985 Sedgewick, AB. Under the \$2.00 it is possible to make out a 34. John thinks this may be extra insurance. The first \$100 costing 39¢ and the second \$100 costing 34¢. This would leave \$12.12 for the parcel. Does any one have a parcel rate chart (from June 24 1985) for either "K" or the "T" postal code? A guess would be this was a parcel in 20 Kg to 22 Kg range.

1- In a recent note from Jean des Rivieres he reports having acquired a set of the Monteiro books and that they are a "gold mine of information."

SECTION VII - MAMMALS AND ARCHITECTURE SERIES OF 1988-92

In Volume 1, No. 5, pages 68-9, Samuel Rock provided members with a detailed look at the Mammals and Architecture Series and invited member input, comments, and contributions in completing this study. In the interim much has occurred. He and D. Robin Harris have compared notes as have others. Further, the data has been reconfirmed as Sam says "Although non-existence can never safely be proved, all possible bases have been covered in the effort to document the questionable varieties. Thus, I'd venture it is safe to assume that they do not exist."

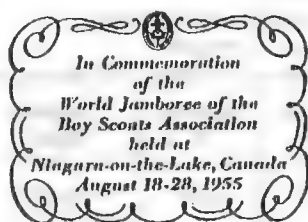

Sam goes on to point out that he has caught a few "gremlins" which are now corrected - "the corrections have been made to the non-inscripted Slater printings of the 1¢ Squirrel and the 45¢ Pronghorn, as well as adding back the 25¢ Beaver which had fallen off the end of my table." (I am heartened to know others have this problem - having been there a number of times). For convenience, the revised listings as of 9-23-93 appear on pages 32 and 33. I am sure those keenly pursuing this definitive series will be delighted.

I have the following photocopies of a Boy Scout booklet.

Sheet Stamp:

Scott No. 356
Perf. 12 X 12
Printer: CBNC
Issued: 20-VIII-1955

Booklet:

(Data needed)

Evidently, this was a privately sponsored souvenir booklet. The copy is not clear enough but I assume the booklet was printed by CBNC and that the stamp is perforated and could be used for postage. My problem I do not find it listed in any of the catalogues. Is this similar to the SOPEP Signature Sheet on which there is speculation whether it will be given catalogue status? Is there a source specializing in listing these types of items similar to the catalogue of "Strike, Courier and Local Post of the Elizabethan ERA" edited by Dr. Earle L. Covert? Any information appreciated. By the Editor

Papers: CO = Coated Paper, HA = Harrison, PE = Peterborough, RO = Rolland, SL = Slater

Format: P = Pane, B = Booklet Inscription: PCM = Plate Color Markers, NI = No inscription

SECTION VIII - ALL OTHER - COIL ERROR - THREE SIDED TAGGING

Shown below are examples of a tagging error which "escaped."

Production controls during the tagging procedure are such if a segment of paper fails to get any tagging the computers controlling the presses stop and the fault is corrected. In one such correction, the added tag was spaced in a way the horizontal tag on 18 rows of blank paper missed the perforation by at least 1/4 of an inch. During the printing of the stamps on this paper, the computers again stopped the presses as the horizontal tags were not in the proper position for the 18 rows. The printer, with a red marker, scribbled the incorrect section to show it had to be removed and destroyed. It did not happen. The production wound up in a coil tube of 1000 stamps. Of the 90 pairs of the three sided error 28 had the red marking (shown left above) and 62 were free of the marking (shown on the right above).

SPECIAL ADDENDUM

The remaining 7 pages of the special addendum partially included with Vol. II, No. 1 are included with this issue. You may wish to make sure the two mailings are consolidated.

BOOK REPORT

Several members have inquired into the status of the three volume set of books: "Definitives of Canada: The Last Quarter Century" by Joseph Monteiro. Joseph is in the process of making a decision whether to stay in the original paper format or to go to hard binding. At present paper format is available. The price for delivery in Canada or the United States is \$35.00 Cdn. This might leave a few stamps as change but it is not significant. Shipment to the United Kingdom would run about \$45.00 Cdn. Write to Joseph Monteiro, 1002-89 Vaudreuil Rue, Hull, Quebec, J8X 4E8

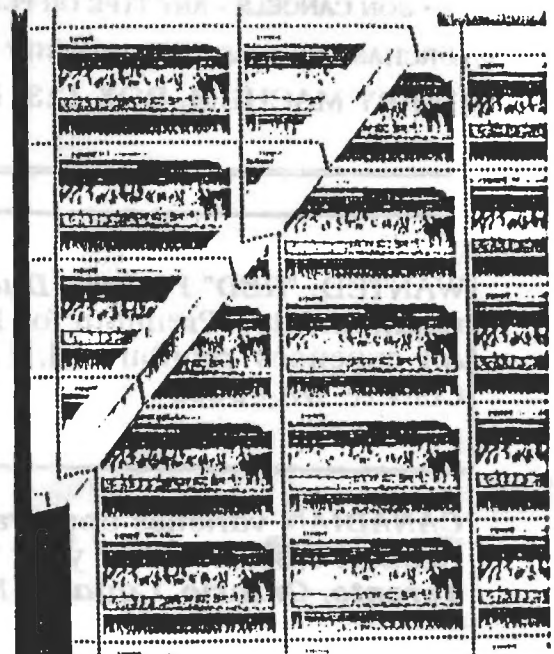

OPPORTUNITY: "For those who are interested, I have the following. (Many) Commercial - FDC (beginning Aug. 1992 and to date); Many Postmarks and K cancels; Post Mark and K cancel Errors; also some early QE II varieties," George M. Saikaley, 1881 Main St., Lefaire, Ontario, Canada K0B 1J0
